PROFILE

Banking and finance graduate who builds websites, Android apps and business systems. At Exxonim Company Limited I combine software development with finance and operations: budgets, accounting records, reporting and audit support.

EXPERIENCE

Software Development and Business Operations — Jan 2025 to present
Exxonim Company Limited, Dar es Salaam

- Build and maintain websites, web apps, Android apps and internal business systems.
- Develop database-backed features and APIs; test, troubleshoot and improve them.
- Support budgets, expenditure tracking, accounting records and internal reporting.
- Assist with audit-related processes and financial and operational analysis.
- Work with stakeholders to turn requirements into tools that improve accuracy and efficiency.

Banking Intern — Jul 2024 to Sep 2024
Tanzania Commercial Bank, Dar es Salaam

- Served customers at the front office and teller desk, including account-related enquiries.
- Assisted with daily transaction processing and back-office book balancing.
- Supported accurate records and compliance documentation.

PROJECTS

LigiPlay Android app for eFootball leagues: fixtures, results read from screenshots, player confirmation and live tables. · Flutter, FastAPI, PostgreSQL · Google Play

MangiPlus Android app for small and medium-sized businesses. · Google Play

consult.exxonim.tz Website for company registration, licences, permits and compliance services.

levo.or.tz Website for Legal Vision Organization (LEVO), a legal aid and advocacy organisation.

JOTOFA Group Website proposal for a Tanzanian holding company in ICT, cleaning and staffing. · frontendjotofa.vercel.app

Drax Raw Portfolio website for a filmmaker: films, galleries and WhatsApp booking. · sulemsaba.github.io/draxraw

Other client and internal systems are private.
